Our schools are taught by top USCA certified instructors who are qualified and experienced players selected by our staff because of their croquet expertise and ability to communicate to those who wish to learn to play the game correctly. Students will have the opportunity to play croquet in a structured environment. Classes are small (8:1 or less student to teacher ratio) and are tailored to the specific playing levels of the participants. The elements of croquet are explained and demonstrated in detail. We strive to have similarly skilled players in a particular group, however, there may be times due to demand that we have a diverse group of skills. In these cases, the instructor will give each student proper attention specific to their skill level.

5 hours/day of on-court instruction

Use of equipment
